

Teknik Makina has been established in 1987 in Turkey. Teknik Makina Tools started to produce cutting tools in 1994. Over 5.000 kinds of tools are produced in new factory building located in Fourth Industrial Area of Konya since 2015. There are 40 production lines which is capable to produce in several categories at the same time. Production and designing teams are all educated and certified according to ISO 9001 quality standard to serve you better.

Konya and Istanbul branches are dedicated with marketing and sales. Teknik Makina does international trade as cutting tools exporter with many countries all around the World. Teknik Makina offers you the highest level of quality, service and reliability, in a very short lead-time with the best Price, guaranteed. You may ask for samples to experience our products also.

Our vision is that provide appropriate solution in our globalized world with the principle of optimal production and for different requirements. Also to be a respected and prestigious brand which develops continuously with the technological renovations and preferred firstly in its own sector.

We have adopted as our environmental policy in our works to take the activities which may influence the environment under control properly, to comply with all of the legal conditions relating to environment completely, to improve our environmental management system continuously and to make the livable conditions of our world as sustainable.

Our mission is that provide to our customers, the best service and Price triangle. Being a leader enterprise which considers it as an essential target to keep the customer satisfaction always in the front side by means of producing and providing all of our products and services with high quality, with affordable Prices and in the fast manner as we present them to our valuable customers and in this manner to make some positive contributions for both society and environment and enhance, develop and improve in each day and to present services to the wider mass of people.

In this respect, our purpose is to adopt the quality management as a lifestyle in order to ensure the quality awareness in a systematic and regular manner in all of our activities and in the service units and to perform its requirements properly.

For the purpose of forming a secure and healthy working environment, we undertake;

1. To determine and specify the risks relating to the occupational health and safety dangers and to take them under control,
2. To comply with all of the legal obligations and standards on the subject of occupational health and safety,
3. To inspect the WHS (Work Health & Safety) applications properly and effectively, to improve them continuously and to make our employees conscious and to attain the target of "zero work accident".
